

PHASE I ENVIRONMENTAL SITE ASSESSMENT REPORT

FOR: Riverside RV Park and Gas APN: 140-050-16, 17

LOCATED ON: 17523 US Highway 101, Klamath, CA 95548

PREPARED FOR:

Yurok Tribe
190 Klamath Blvd
Klamath, CA 95548

FINAL

September 5, 2012

Prepared by:

Ray Martell

Of

Yurok Tribe Environmental Program
PO Box 1027
Klamath CA 95548
707-482-1822

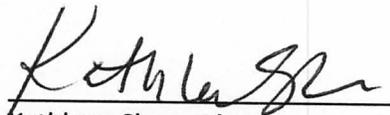

Signatures of Environmental Professionals

The following Environmental Professionals performed this Phase I ESA in conformance with ASTM Standard Practice E 1527-05 and AAI Standards. The following individual(s) meet the qualifications for individuals completing or overseeing all appropriate inquiries, and possess sufficient specific education, training, and experience necessary to exercise professional judgment to develop opinions and conclusions regarding the existence of environmental conditions on the property. Any work completed on this ESA by an individual who is not considered an environmental professional was completed under the supervision or responsible charge of the environmental professional.

1.0 INTRODUCTION

The Yurok Tribe Environmental Program has prepared this Phase I Environmental Site Assessment (Phase I ESA) on the Riverside RV and Gas property, located on 17523 US Highway 101, near McMillan Road, near Klamath, California (hereafter referred to as the Site, or Subject Property). This Phase I ESA was prepared for the exclusive use of the Yurok Tribe located in Klamath, California and the United States Environmental Protection Agency (USEPA) Region 9 Brownfields Program.

This Phase I conforms to the principals of ASTM E 1527-11 "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" (ASTM, 2005).

This report is organized as recommended in ASTM E1527-05.

1.1 Purpose

The Purpose of this Phase I ESA is to identify Recognized Environmental Conditions (RECs) associated with the Subject Property. An REC is defined by ASTM as the presence or likely presence of any hazardous substance or petroleum products on a property under conditions that indicate an existing release or a material threat of release of any hazardous substances and petroleum products even under conditions in compliance with law.

This report will include listings of historic RECs if applicable. A historical REC is an environmental condition which, in the past would have been considered a REC, but which may or may not be considered a REC currently.

RECs do not include de minimis conditions that generally would not be subject to any enforcement action if brought to the attention of appropriate agency.

1.2 Detailed Scope of Work

This Phase I ESA conforms to the principals of work described in ASTM E1527-05.

1.3 Significant Assumptions

It is assumed that the groundwater flow direction on the vicinity of the Subject Property is toward the west towards the Klamath River, based on sloping topography on the vicinity of the Subject Property.

1.4 Limitations and Exceptions

"No environmental site assessment can wholly eliminate uncertainty regarding the potential for the recognized environmental conditions in connection with a property. Performance of this practice is intended to reduce, but not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with the property" (ASTM, 2005). The information included in this report is based professional opinions from our field reconnaissance and visual observations of the Subject Property and our review and interpretation of available historic information as described in this report.

1.5 Special Terms and Conditions

No special terms or conditions are related to this investigation.

1.6 User Reliance

This report was prepared for the sole and exclusive use of the Yurok Tribe located in Klamath, California and the USEPA Region 9 Brownfields Program. The scope of work performed in this investigation may not be appropriate to satisfy the needs of others. Any use of this document and findings as at the sole risk of said user.

2.0 SITE DESCRIPTION

2.1 Location and Legal Description

The Subject Property is located in unincorporated Del Norte County, north of Highway 169, in the vicinity of the town of Klamath, California. The parcels are located on the west side of US Highway 101. The western boundary of the subject properties is bordered by the eastern shores of the Klamath River.

The legal descriptions of the properties are defined as:

PARCEL ONE

Beginning at a point 1366.07 feet South and 14.36 feet East from the East one-quarter corner of section 4, Township 13 North, Range 1 East, Humboldt Meridian; and running

thence South 10 degrees 32 minutes 57 seconds West 99.85 feet;

thence South 30 degrees East 35.28 feet;

thence South 60 degrees West to the Westerly line of lot 9 of said section 4,

thence Southerly along said westerly line, 170 feet, more or less, to the Northwesterly line of a strip of land described in deed to the Administrative of the Estate of Betty Safford, deceased, recorded November 01, 1933 in Book 52 of Deeds, page 352, Del Norte County Records,

thence North 49 degrees 00 minutes East, 667 feet, more or less, to the State Highway;

thence Northwesterly along said highway to a point from which the point of beginning bears South 78 degrees 17 minutes 09 seconds West; and

thence South 78 degrees 17 minutes 09 seconds West, 90.33 feet more or less, to the point of beginning.

EXCEPTING therefrom that portion thereof, if any, conveyed to Willis C. Ward by deed records March 18, 1904 in Book U of deeds, page 90, Del Norte County records.

PARCEL TWO

Beginning at a point 1366.07 feet South and 14.36 feet East one quarter corner of Section 4, Township 13 North, Range 1 East, Humboldt Meridian; and running

thence South 10 degrees 32 minutes 57 seconds West 99.85 feet;

thence South 30 degrees East 35.28 feet;

thence South 60 degrees West to the Westerly line of lot 9 of said section 4,

thence Northerly along said Westerly Line of Lot 9 to the Southerly line of that parcel of land conveyed to Thomas J. and Pearle M. Kruger by deed recorded December 17, 1963 in Book 89 of Official Records, page 643, Del Norte County Records;

thence along said South line North 60 degrees East to the State Highway;

thence Southeasterly along said State Highway to a point from which the point of beginning bears South 78 degrees 17 minutes 09 seconds West;

thence South 78 degrees 17 minutes 09 seconds West 90.33 feet, more or less, to the point of beginning.

EXCEPTING therefrom that portion thereof, if any, conveyed to Willis C. Ward by deed records March 18, 1904 in Book U of deeds, page 90, Del Norte County records.

2.2 Site and Vicinity General Characteristics

The site is accessible from US Highway 101, a major artery that traverses North and South through Del Norte County, through the state of California, north of the town of Klamath.

Currently the Subject Property consists of developed land. A large portion of the land has been developed to accommodate recreational vehicles and overnight tent campers. There are three buildings on the property: a gas station and garage which are no longer occupied a two story building, and a single story laundry/bath/shower facility. The Subject Property is relatively flat, though topography in the area slopes slightly to the south, towards the Klamath River

2.3 Current Use of the Property

The Subject Property is currently used as a seasonal recreational vehicle park with three structures on the Site. The RV Park can accommodate up to 60 recreational vehicles. The first structure is a two story house on the property. The first story of the property is used for storage, RV Park Manager Office and a recreational room for guests of the RV Park. The second story is a rental apartment. The second structure is a shower and restroom and a laundry facility for the guests of the RV Park. The third structure is a former gas station and service garage. At the time of this writing, the former gas station and garage are in the process of being demolished.

2.4 Description of Structures, Roads, Other Site Improvements

The Subject Property is currently used as a seasonal recreational vehicle park with three structures on the Site. The RV Park can accommodate up to 60 recreational vehicles. There is a two story

house on the property. The first story of the property is used for storage, RV Park Manager Office and a recreational room for guests of the RV Park. The two story building is approximately 1,200 square feet. The second story is used as a residence and is approximately 700 square feet. There is a shower and restroom facility on the Subject Property that contains a laundry facility. The facility located on the western portion of the property and is approximately 640 square feet. The third structure is a former gas station and mechanics garage. At the time of this writing, the former gas station and garage are in the process of being demolished. The former mechanics garage contains a hydraulic lift that is still contained in the ground.

There is one primary paved access road that enters the property from US Highway 101. It enters the Site from the east and traverses perpendicular to the western boundary of the Subject Property. This road is the primary access to all of the RV site, the former gas station, the laundry room and the Rental/recreation house.

The Site has electricity, cable, water and sewer provisions for all of the RV spaces that are rented out. There is WiFi and telecom available at the park for the tenants and the renters.

2.5 Current Use of Adjoining Properties

There are two adjoining properties that border the Subject Property. Chinook RV Resort is contiguous to the northern boundary of the Subject Property and is a seasonal recreational vehicle and tent camping park. The Golden Bear RV Resort is contiguous to the southern boundary of the Subject Property, and is a seasonal recreational vehicle and tent camping park. The Klamath River borders the Subject Property to the east, and US Highway 101 borders the western boundary of the property.

3.0 USER PROVIDED INFORMATION

3.1 Title Records

There are no property transactions with the Yurok Tribe currently in process with the Subject Property. Therefore a title report has not been ordered.

Mrs. Tonya Sangrey, Yurok Economic Development Corporation Director, indicated that a title search was conducted by the Yurok Tribe at the time the Subject Property was acquired by the Yurok Tribe. Mrs. Sangrey indicated that the title was clear.

3.2 Environmental Liens or Activity Use Limitations

There are no Environmental Liens or Activity and Use Limitations on file for the Subject Properties.

3.3 Specialized Knowledge

The Yurok Economic Development Corporation has applied for a Water Quality Discharge permit from the Yurok Tribe Environmental Program, Division of Water Quality. This Water Quality permit was approved by the Division of Water Quality for the replacement of the failed septic system. The system is used for the RV Park, the laundry/bath/restroom facility and the house.

3.4 Public Outreach Meeting Results

An essential part of the Phase 1 ESAs is the collection of historical knowledge directly from Yurok Tribal Members about each of the Brownfields sites including this site. Maps and aerial photographs of the Brownfields Sites were provided prior to and during the meetings and the participants were encouraged to note information directly onto the maps and photographs, as well as completing the questionnaires to capture information from the community.

A Public Outreach Meeting was conducted on May 20, 2012, during the Yurok Tribe's quarterly Requa District Meeting. The meeting was hosted by Tribal Councilmember David Gensaw. An attendee list is provided in appendix B. Aerial maps, site pictures, former deeds and parcel maps were made available for the public to view. There was institutional knowledge of the Subject Property that was shared by several of the meeting participations. Of concern of the property was that fact that the Site housed a former gas station, with no knowledge of the underground storage tanks being removed. There was an automotive repair shop that housed a hydraulic lift. The lift is still in place, leading the meeting participants to believe that the hydraulic fluid reservoir could still be present under the lift. The building that once housed the hydraulic lift has recently been razed, and therefore the hydraulic lift is now exposed. There are several septic systems, one of which recently failed and are currently being replaced by the present owner, the Yurok Economic Development Corporation (YEDC). The former Gas Station was recently used as a small business enterprise, "Paul's Smoked Salmon". Additional information from the public meeting revealed that there was a timber mill that was adjacent to the Subject Property, and that a portion of the Site may have been used during the lumber production and a fish cannery later replaced the mill on the adjacent site.

3.5 Commonly Known or Reasonably Ascertainable Information

It is commonly known that in December 1964, a flood event occurred in the Klamath River basin. It is also commonly known that the flood event of December 1964 destroyed the entire town of Klamath, as well as adjacent communities. The Subject Property was inundated with flood waters from that event.

3.6 Valuation Reduction for Environmental issues

The intention of this document is to evaluate the potential impacts of REC's on Tribal Lands within the Yurok Indian Reservation. Any reduction in value of the property is unknown and therefore not relevant to this report.

3.7 Owner, Property Manager and Occupant Information

Mrs. Tonya Sangrey, representative of the Subject Property owner, provided responses to an environmental questionnaire. The completed questionnaire is included in Appendix B. Mrs. Sangrey indicated that the Subject Property is owned by the Yurok Tribe, and is located on Highway 101 North, in the vicinity of the town of Klamath, California. She indicated that there is currently an occupant on the Site. The renter is occupying the upstairs apartment of the residence that is on the property. According to the County of Del Norte County, the title was vested to the Yurok Tribe on April 16, 1997. The previous owners, Fred R. Stockett and Lorena L Livingtree, sold the Subject Property to the Yurok Tribe. The property was filed and recorded on September 22, 2009 in Official Records of Del Norte County.

On June 13th, 2012 Property Managers, Ray and Rosemary Mashere, were interviewed regarding their general knowledge of the Subject Property. Mrs. Mashere indicated that the fuel tanks associated with the Gas Station were removed on 2006, prior to the Subject Property being purchased from the previous owner, Fred Stockett. Mrs. Mashere also indicated that the property was flooded on 4 occasions prior to Mr. Stockett purchasing the property. Mrs. Mashere clarified that the number of RV spaces available at the park was approximately 60. The County of Del Norte County has the park allotted for 92 spaces, but today's larger RVs utilize more space than when the park was originally permitted. Mrs. Mashere indicated that the septic system was recently updated, and that the previous sewer system had failed in 2011.

3.8 Reason for Performing Phase I ESA

The Yurok Tribe, user of this report, indicated that the reason for performing a Phase 1 ESA is to ensure that contamination does not threaten public health and the environment during and after redevelopment of the Site. The Yurok Tribe has selected this Site to be evaluated under the USEPA Brownfields Program.

4.0 RECORDS REVIEW

4.1 Standard Environmental Record Sources

Yurok Tribe Environmental Program has contracted with Environmental Data Resources (EDR), a company that specializes in the acquisition and compilation of local, state and federal environmental records, to acquire the ASTM required records. EDR has provided a Radius Map Report, which is provided in Appendix C. EDR searched the Subject Property and surrounding area for standard environmental records as required by ASTM E1527-05. A complete listing of the databases searched and the radius searched are included in the EDR Radius map report.

- Yurok Indian Reservation does not have a listed address and are on the "Indian Reservation" database indicating the presence of Indian administrated lands that have an area greater than or equal to 640 acres.

4.2 Additional Environmental Record Sources

A letter, dated July 10, 2007 from the California Regional Water Quality Control Board and addressed to Mr. Fred Stockett, was acquired during the records search. The letter written was in reference to "No Further Action" for the Riverside RV Park, Klamath, California. The letter is in reference to the removal and closure of three underground storage tanks (USTs) that were associated with the former gas station located at the Subject Property. The USTs were removed in November 2000, and soil samples were collected from the pits that contained the former USTs. The analytical results were reported to contain low levels of Total Petroleum Hydrocarbons as Gasoline (TPHg), toluene, and xylene from the samples collected from the UST tank pits. The County of Del Norte County issued an unauthorized release report on this site on November 14, 2000.

On May 4th, 2007, SHN Consulting Engineers and Geologists (Eureka, CA) collocated additional well and soil boring samples from the former UST pit locations. The samples were sent to a certified analytical laboratory, North Coast Laboratories (Arcata, CA) for analysis of contaminants related to petroleum products. The laboratory analytical results indicated that there were no contaminants detected in the former UST tank pit area. No indication (odor or color) of petroleum contamination was present in the soil and groundwater samples collected. SHN Consulting Engineers and Geologists concluded that it does not appear that any residual petroleum contamination from past use was still present in the soils or groundwater.

4.3 Physical Setting Sources

The 1997 United States Geological Survey (USGS) 7.5 minute map titled Requa, California, which includes the Subject Property and surrounding areas, was reviewed and is included in Figure 3. The Subject Property has an elevation of 10 feet above mean sea level. The Subject Property is in a flat area that is located on a flat river bar. The topography of the area around the Subject Property slopes southwest. The nearest streams shown on the USGS topographic map are Salt Creek, which flows north to south and empties in the Klamath River; Mynot Creek, which flows northeast to southwest and empties into Spruce Creek; Spruce Creek, which flows south to north and empties

into the Klamath River; Richardson Creek, which flows southwest to northeast and empties into the Klamath River; Hunter Creek, which flows east to west and empties into the Klamath River. The Klamath River flows from south to northwest and borders the western boundary of the property.

4.4 Historical Use Information on the Property

Information in this section of the report is based on acquisition and review of various historical sources, including historic aerial photographs, historic topographic maps, and interviews with local officials. City directory data and Sanborn Fire insurance maps were not available with coverage for the Subject Property.

4.4.1 EDR Historic Aerial Photographs

Aerial photographs from 1964, 1974, 1983, 1993, 1998 and 2005 were provided by EDR. Copies of the aerial photographs are included in Appendix D. The aerial photographs were reviewed and the following observations were made:

- 1964: From this photograph, the property has several visible unimproved roads that border and bisect the property. No structures are identifiable in this aerial photograph.
- 1974: From this photograph, the property has several visible unimproved roads that border and bisect the property. No structures are identifiable in this aerial photograph.
- 1983: From this photograph, the property has several visible unimproved roads that border and bisect the property. No structures are identifiable in this aerial photograph.
- 1993: From this photograph, the property has several unimproved roads that border and bisect the property. Visible are several RVs parked throughout the Site, as well as what appears to be a large building on the western edge of the Site.
- 1998: From this photograph, the property has several unimproved roads that border and bisect the property. Visible are several RVs parked throughout the Site, as well as what appears to be a large building on the western edge of the Site.
- 2005: From this photograph, the property has several unimproved roads that border and bisect the property. Visible are several RVs parked throughout the Site, as well as what appears to be a large building on the western edge of the Site. There also is a boat dock that is extending into the Klamath River from the southeast portion of the Subject Property.

4.4.2 Other Historic Photographs

A historic aerial photograph from Del Norte County, taken in 1962, shows the Subject Property without the improved roads that are seen in later aerial photographs (EDR Historic Photographs Riverside RV and Gas: 1964, 1974, 1983, 1993, 1998, 2005). There appears to be a building that is in the location of an existing gas station and a service garage. There appears to be several vehicles parked randomly throughout the property. The vehicles are not parked in a fashion that would suggest that an improved RV Park is established. There appears to be a large building on the western edge of the Site.

4.4.3 Historic Topographic Maps

Historic topographic maps from 1947, 1952, 1966, and 1997 were provided by EDR. Copies of the historic topographic maps are included in Appendix E. The topographic maps were reviewed and the following observations were made:

- 1947: There are no structures or streets visible within the Subject Property on this topographic map. The location of the Subject Property is located in an area on the map labeled "Camp Klamath". Visible on the map is a sawmill site labeled "Klamath Cedar Co.". The "Klamath Cedar Co." sawmill is located south of the Subject Property.
- 1952: On this topographic map, there appear to be several structures in the vicinity of the Subject Property. The location of the Subject Property is located in an area on the map labeled "Camp Klamath". Visible on the map is a sawmill site labeled "Sawmill". The "Sawmill" is located south of the Subject Property.
- 1966: In this map, there are several structures and a road that is bisecting the property is visible. There is a boat dock labeled on the map that appears to be adjacent to the Subject Property. The boat dock is located on the eastern portion of the property, and is extending into the Klamath River.
- 1997: In this map, there are several structures and a several roads traversing the property that are visible. There is a boat dock labeled on the map that appears to be adjacent to the Subject Property. The boat dock is located on the eastern portion of the property, and is extending into the Klamath River.

4.4.4 Historic City Directories

Historic city directory was not available with coverage for the town of Klamath. Documentation of the lack of coverage is included in Appendix F.

4.4.5 Sanborn Fire Insurance Maps

Historic Sandborn Fire Insurance Maps were not available with coverage for the town of Klamath. Documentation of the lack of coverage is included in Appendix G.

4.5 Historical Use Information on Adjoining Properties

The property to the north of the Subject Property has a past historic use as a recreational vehicle park. The historic uses of the property to the south of the Subject Property include a recreational vehicle park, a fish packing plant and canary, and a lumber sawmill.

4.6 Data Failure

Historical records tracking the development for the Subject Property date back to 1958. Topographic maps of the region date back to 1947. The earliest development for this property is shown in the 1947 Klamath Topographic Quad. The County Of Del Norte County's property records date back to 1958. The available historical data fails to identify the historical uses of the property prior to 1947. This creates a data gap between the years 1940 and 1947. Historic records indicate the modern town

of Klamath was first developed in 1851, then was abandoned in 1852. It was reestablished in 1926, and was flooded in 1955 and 1964. After the 1964 flood, most of the town's inhabitants left.

5.0 SITE RECONNAISSANCE

5.1 Methodology and Limiting Conditions

The Subject Property was inspected by Ray Martell (March 4, 2012 and June 13, 2012) and Kathleen Sloan, Ph.D. (March 14, 2012) of the Yurok Tribe Environmental Program. YTEP was escorted by Mrs. Rosemary Mashere, Site Manager on June 13, 2012. Photographs from the Site inspections are included in Appendix H.

5.2 General Site Settings

Currently the Subject Property consists of developed land. A large portion of the land has been developed to accommodate recreational vehicles and overnight tent campers. There are three buildings on the property: a gas station and garage which are no longer occupied, a two story building, and a single story laundry/bath/shower facility. The Subject Property is relatively flat, though topography in the area slopes slightly to the south, towards the Klamath River.

5.3 Exterior Setting

Currently the Subject Property consists of developed land. A large portion of the land has been developed to accommodate recreational vehicles and overnight tent campers. This includes 60 spaces for the RV's that each have electricity, water, sewer and television services. There are three structures on the Site. A former gas station and garage is being demolished at the time of this writing. There is a hydraulic lift that is still intact on the site of the former gas station garage (Figure ___). There is a two story building that houses a recreation room and the Park Managers Office on the first floor. The second story is an apartment. The small cement outbuilding serves as a laundry/bath/shower facility. A new septic system was installed in the spring of 2012. This includes new tanks, lines and leach field.

5.4 Interior Observations

There are three structures located on the Subject Property. The first structure is the remains of the former gas station and shop. At the time of this writing, the building and associated canopy are being demolished. There are no fixtures remaining inside the former gas station. The laundry/bat/shower facility houses three each washers and dryers, 2 bathroom stalls and 2 showers. The two story building contains a recreation area with a kitchen and small office that is used by the RV Park manager. The apartment was now available for inspection.

6.0 INTERVIEWS

6.1 Interviews with Owners

Mrs. Tonya Sangrey, representative of the Subject Property owner, provided responses to an environmental questionnaire. The completed questionnaire is included in Appendix B. Mrs. Sangrey indicated that the Subject Property is owned by the Yurok Tribe, and is located on Highway 101 North, in the vicinity of the town of Klamath, California. She indicated that there is currently an occupant on the Site. The renter is occupying the upstairs apartment of the residence that is on the property. According to the County of Del Norte County, the title was vested to the Yurok Tribe on April 16, 1997. The previous owners, Fred R. Stockett and Lorena L Livingtree, sold the Subject Property to the Yurok Tribe. The property was filed and recorded on September 22, 2009 in Official Records of Del Norte County. The Subject Property was sold as an RV Park.

6.2 Interview with Site Manager

On June 13th, 2012 Property Managers and Occupants, Ray and Rosemary Mashere, were interviewed regarding their general knowledge of the Subject Property. Mrs. Mashere indicated that the fuel tanks associated with the Gas Station were removed in 2006, prior to the Site being purchased from the previous owner, Fred Stockett. Mrs. Mashere also indicated that the property was flooded on 4 occasions prior to Mr. Stockett purchasing the property. Mrs. Mashere clarified that the number of RV spaces available at the park was approximately 60. The County of Del Norte County has the park allotted for 92 spaces, but today's larger RVs utilize more space than when the park was originally permitted. Mrs. Mashere Indicated that the septic system was recently updated, and that the previous sewer system had failed in 2011.

6.3 Interviews with Occupants

Ray and Rosemary Mashere, the Site Managers, are also occupants of the Site, as describes in sections 3.7 and 6.2.

6.4 Interviews with Local Government Officials

Yurok Tribal Councilmember, David Gensaw, representing the Requa District stated that there was a timber mill that was adjacent to the Subject Property, and that a portion of the Site may have been used during the lumber production. He also indicated that a gas station with a mechanics shop was in operation in the late 1960's.

7.0 FINDINGS

The assessment has identified the following environmental findings:

- The County of Del Norte County issued an unauthorized release report on this site on November 14, 2000. The release report was issued due to the fact that one of the USTs associated with the former gas station and mechanics shop was reported as leaking. The Site has since been cleared by the State of California Regional Water Quality Control Board as needing "No Further Action".
- There was a hydraulic lift that was associated with the automotive service station. According to county records, the gas station and automotive repair facilities were closed in 1976. The building was re-permitted as a storage facility. The hydraulic lift associated with the service station was never removed and is still present on the Subject Property.
- In 2011, the septic system failed that serviced the Subject Property and all associated buildings completely failed in 2011. The septic system was completely renovated in 2012. The renovation of the septic system included the installation of new tanks, new pipelines and a new leach field.

8.0 OPINION

Qualifications of the environmental professionals that prepared this report are included in Appendix H.

9.0 CONCLUSIONS

We have performed a Phase 1 Environmental Site Assessment in conformance with the scope and limitations of ASTM E 1527-05 at the Subject Property, located on *(location)* (APN), near *(town)*, California. Any exceptions to, or deletions from, this practice are described in Section 2 of this report. This assessment has revealed the following recognized environmental conditions in connection with the property:

This assessment has revealed historical recognized environmental conditions in connection with the property.

- There was a gas station and a service station on the Subject Property. The gas station and service station were closed down in 1976, and in 2006 the USTs were removed. There was a hydraulic lift that was associated with the service station. The hydraulic lift was never removed after the facilities were closed in 1976. The potential for petroleum and solvent contamination exists.

10.0 DEVIATIONS

There were no significant deviations from ASTM E 1527-05.

11.0 ADDITIONAL SERVICES

No additional environmental services were provided under this contract.

EDR ENVIRONMENTAL LIEN SEARCH RESULTS

Riverside RV and Gas
17523 US Highway 101 HWY
Klamath, CA 95548

Inquiry Number: 3297522.8S
April 12, 2012

The EDR Environmental LienSearch™ Report

The EDR Environmental LienSearch™ Report provides a comprehensive search of environmental liens and encumbrances for the property located at 17523 US Highway 101 HWY, Klamath, CA 95548. This report is based on a search of the California Environmental LienSearch™ database, which includes information from various state and local agencies, including the California Department of Public Health, the California Department of Industrial Relations, and the California Department of Industrial Relations. The search results are presented in a clear and concise format, allowing you to quickly identify any potential environmental liens or encumbrances that may affect your property. For more information, please contact EDR at 800.352.0050 or visit our website at www.edrnet.com.

ENVIRONMENTAL QUESTIONNAIRES

Yurok Tribe Environmental Program: Environmental Questionnaire

User / Client:

Date:

Name: TONYA STANSLEY

Title: YEDC EXEC. DIRECTOR

Organization:

Status:

Client / Owner

Site manager

Occupant

Government Official

Other: explain _____

What is the reason the Phase I is required?

What is the current use of the property?

RV PARK, TRADING POST,

What type of property transaction is this?

Sale

Purchase

Exchange

Other: *explain* _____

Have you engaged a title company or professional to review recorded land title records and lien records?

Yes

No

If yes, describe:

Ray McMillen, _____

What were the results of the title review?

Are any services beyond the requirements of Practice E1527 (Phase I ESA) required?

Yes

No

If yes, describe:

Who is the site contact for the property?

Tonya Sangrey, Terri Colton, ASST Dineen _____

How can the site contact be reached?

Who is the owner of the property?

YUZOIR TRIBE, YEDC

Who are the occupants of the property?

Ray & Rosemary, MARSHORE
Jimmy KINDER - Occupant of HOUSE
ON PROPERTY

Do any of the parties to the property transaction have a required standard scope of service?

Yes

No

If yes, describe:

Are you aware of any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry?

Yes

No

If yes, describe:

As the user of this ESA do you have any specialized knowledge or experience related to the property or nearby properties?

Yes

No

If yes, describe:

PRIOR OWNER REMOVED ALL UST TANKS,
RESTAURANT IN OLD SHOP & NEW SEPTIC
INSTALLED IN 2012, REPLACED REDWOOD TANKS,
NEW LEACH FIELD - SOUTH LEACH FIELD INTACT.
CENTER ROW AINCD - SINK HOLES FIXED, SOUTH ROW GOOD.

Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If not, have you considered whether the price difference is due to contamination?

Yes

No

7 new tanks & new pumps
Hydraulic lift in place.

Additional Information:

Do you know the past use of this property?

Yes

No

If yes, describe:

TRAILER PARKS, Gas station, Garage, store,
RESTAURANT, FLOWED IN 1995, PAUCS
SMOKED HOUSE,

Do you know of specific chemicals that are present or once were present at the property?

Yes

No

If yes, describe:

Typical Gas Station Fluids

Do you know of any spills of other chemical releases that have taken place at the property?

Yes

No

If yes, describe:

Do you know of any environmental clean ups that have taken place at the property?

Yes

No

If yes, describe:

Collapsed - Failed - SWS Septic System,
Required May 2012.

As the user of the ESA, based on your knowledge and experience related to the property, are there any indicators that point to the likely presence of contamination at the property?

Yes

No

If yes, describe:

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

EXECUTIVE SUMMARY

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

ADDITIONAL ENVIRONMENTAL RECORDS

Other Ascertainable Records

INDIAN RESERV: This map layer portrays Indian administered lands of the United States that have any area equal to or greater than 640 acres.

A review of the INDIAN RESERV list, as provided by EDR, and dated 12/31/2005 has revealed that there is 1 INDIAN RESERV site within approximately 1 mile of the target property.

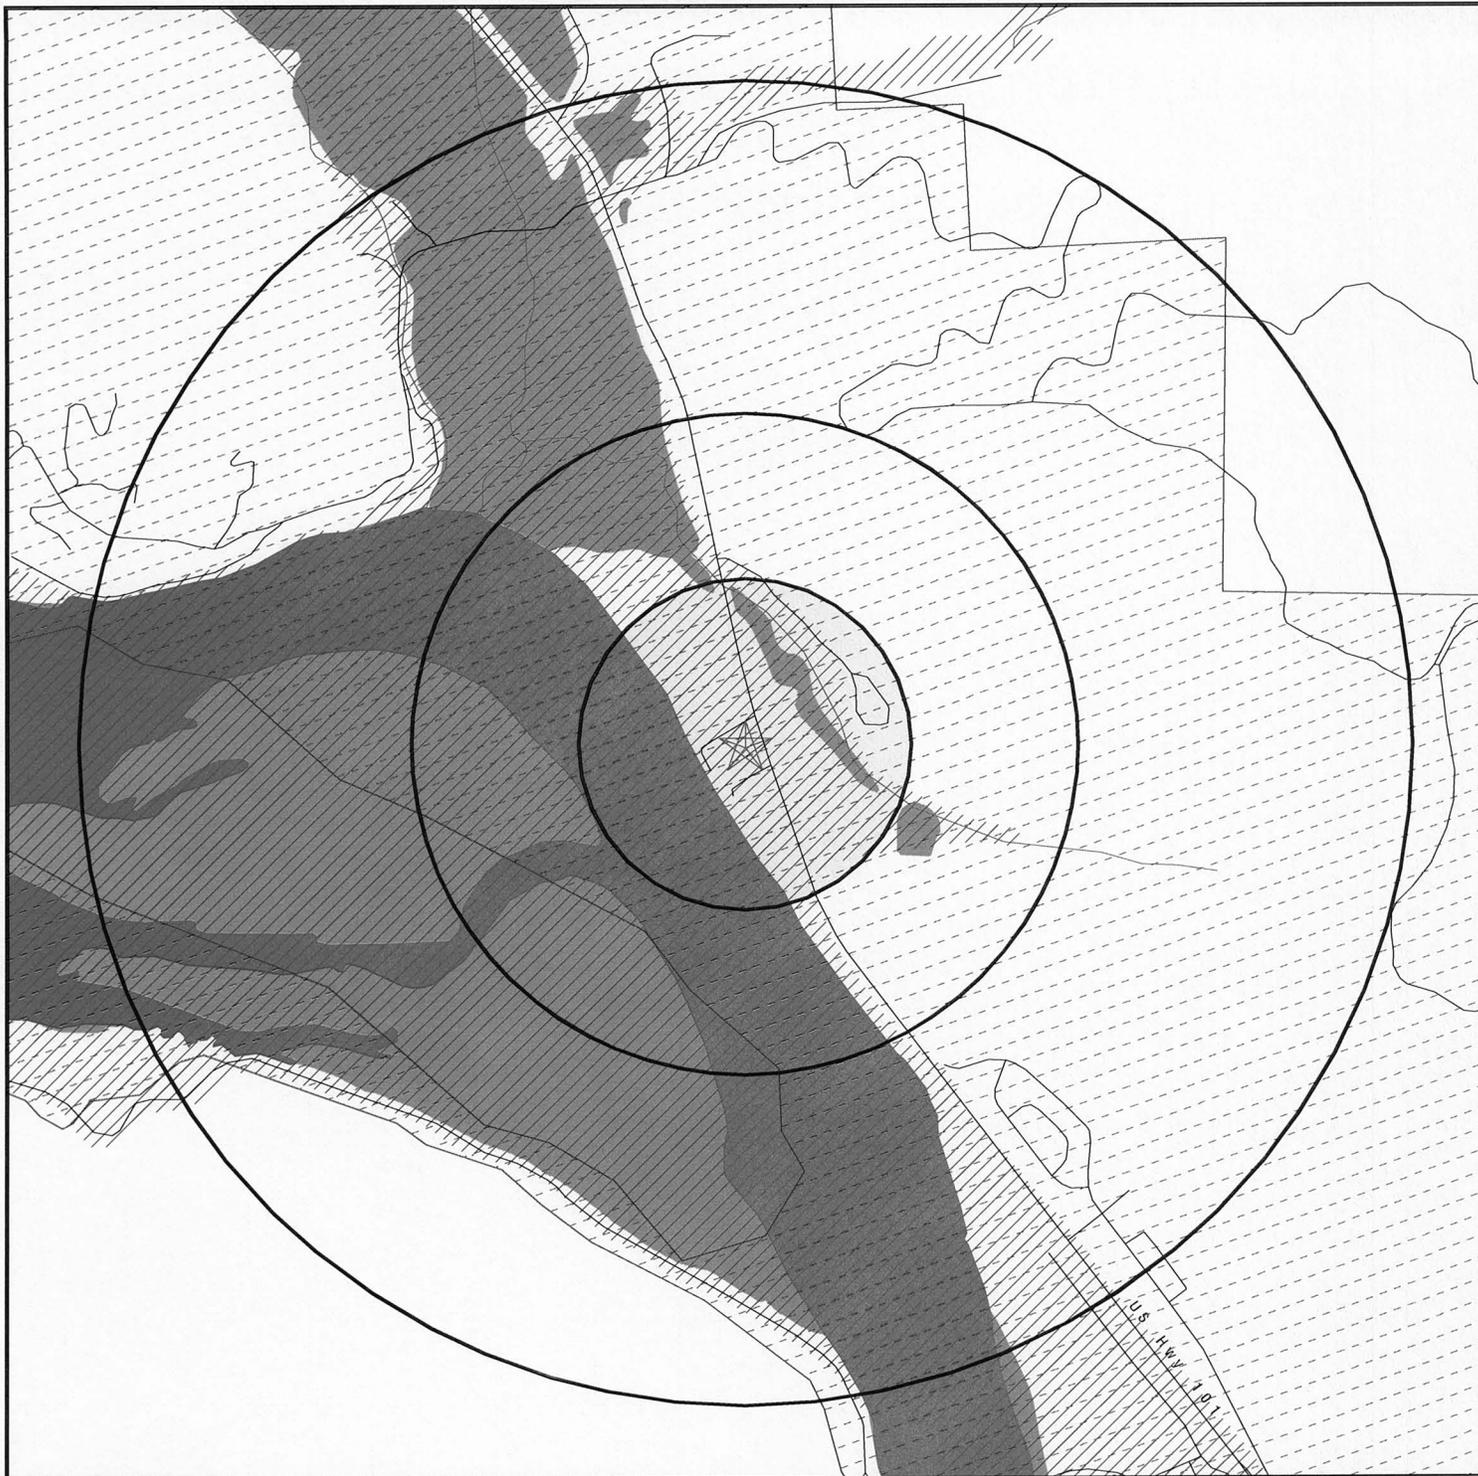

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 09/07/2011	Source: EPA
Date Data Arrived at EDR: 10/12/2011	Telephone: N/A
Date Made Active in Reports: 03/01/2012	Last EDR Contact: 04/05/2012
Number of Days to Update: 141	Next Scheduled EDR Contact: 04/23/2012
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 09/07/2011	Source: EPA

	Data Release Frequency: Quarterly

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 12/27/2011	Source: EPA
Date Data Arrived at EDR: 02/27/2012	Telephone: 703-412-9810

	Data Release Frequency: Varies

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 12/28/2011	Source: EPA
Date Data Arrived at EDR: 02/27/2012	Telephone: 703-412-9810

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 11/10/2011
Date Data Arrived at EDR: 01/05/2012

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 11/10/2011

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal institutional controls / engineering controls registries

US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 12/30/2011	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/30/2011	Telephone: 703-603-0695
Date Made Active in Reports: 01/10/2012	Last EDR Contact: 03/12/2012
Number of Days to Update: 11	Next Scheduled EDR Contact: 06/25/2012
	Data Release Frequency: Varies

US INST CONTROL: Sites with Institutional Controls

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 12/30/2011	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/30/2011	Telephone: 703-603-0695

Federal ERNS list

ERNS: Emergency Response Notification System

Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

Date of Government Version: 10/03/2011	Source: National Response Center, United States Coast Guard
Date Data Arrived at EDR: 10/04/2011	Telephone: 202-267-2180
Date Made Active in Reports: 11/11/2011	Last EDR Contact: 04/03/2012
Number of Days to Update: 38	Next Scheduled EDR Contact: 07/16/2012
	Data Release Frequency: Annually

State- and tribal - equivalent NPL

RESPONSE: State Response Sites

Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

Date of Government Version: 03/14/2012	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 03/15/2012	Telephone: 916-323-3400
Date Made Active in Reports: 04/02/2012	Last EDR Contact: 03/15/2012
Number of Days to Update: 18	Next Scheduled EDR Contact: 05/21/2012
	Data Release Frequency: Quarterly

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Local Lists of Hazardous waste / Contaminated Sites

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 10/07/2011
Date Data Arrived at EDR: 12/09/2011

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006	Source: Environmental Protection Agency

Number of Days to Update: 79	Next Scheduled EDR Contact: 06/25/2012
	Data Release Frequency: Quarterly

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995	Source: EPA

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method.

Date of Government Version: 12/31/2010	Source: California Environmental Protection Agency

EDR PROPRIETARY RECORDS

EDR Proprietary Records

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 02/20/2012	Source: Department of Environmental Protection
Date Data Arrived at EDR: 02/20/2012	Telephone: 860-424-3375

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data

Source: Rextag Strategies Corp.

Telephone: (281) 769-2247

U.S. Electric Transmission and Power Plants Systems Digital GIS Data

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Licensed Facilities

Source: Department of Social Services

Telephone: 916-657-4041

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

RIVERSIDE RV AND GAS
17523 US HIGHWAY 101 HWY
KLAMATH, CA 95548

TARGET PROPERTY COORDINATES

Latitude (North):	41.5422 - 41° 32' 31.92"
Longitude (West):	124.0511 - 124° 3' 3.96"
Universal Transverse Mercator:	Zone 10
UTM X (Meters):	412326.2
UTM Y (Meters):	4599270.0
Elevation:	11 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	41124-E1 REQUA, CA
Most Recent Revision:	1966

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

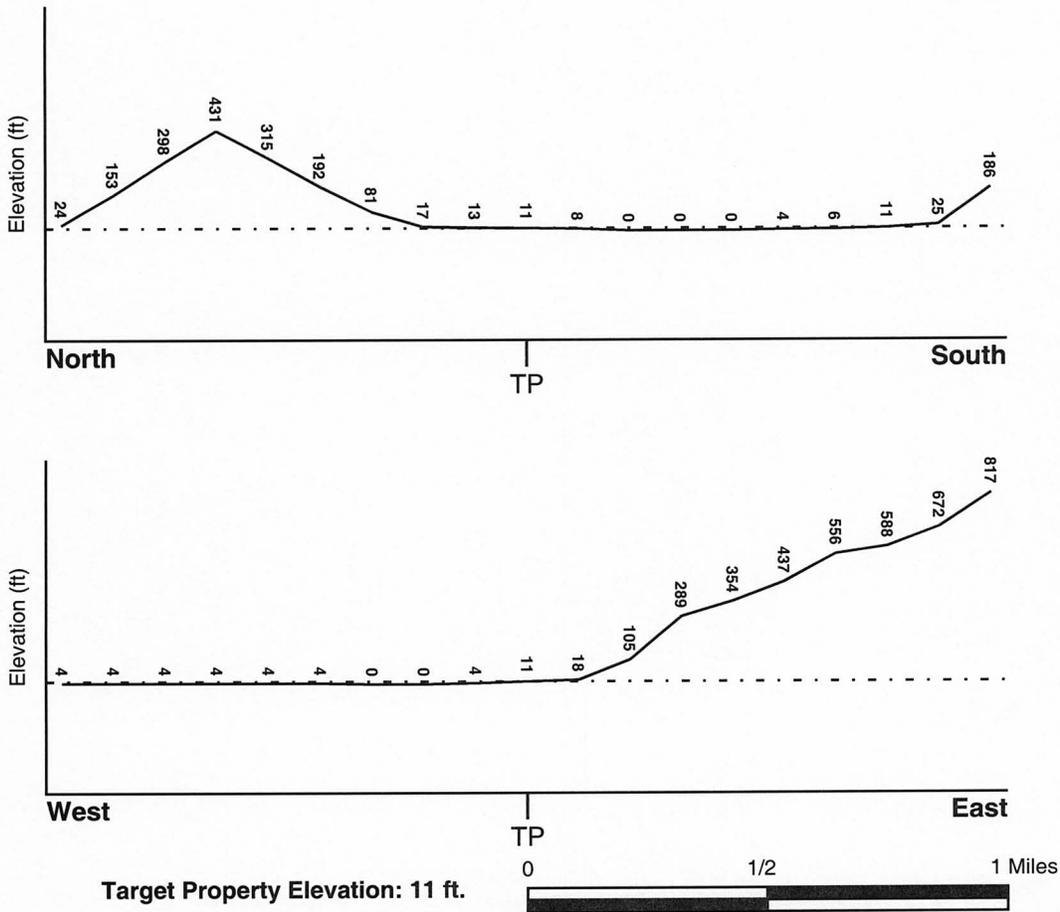

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General West

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Target Property County
DEL NORTE, CA

FEMA Flood
Electronic Data
YES - refer to the Overview Map and Detail Map

Flood Plain Panel at Target Property: 06015C - FEMA DFIRM Flood data

Additional Panels in search area: Not Reported

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property
REQUA

NWI Electronic
Data Coverage
YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data:*

Search Radius: 1.25 miles
Status: Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era: Mesozoic
System: Cretaceous
Series: Upper Mesozoic
Code: uMze(*decoded above as Era, System & Series*)

GEOLOGIC AGE IDENTIFICATION

Category: Eugeosynclinal Deposits

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: BIGRIVER

Soil Surface Texture: sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained. Soils have intermediate water holding capacity. Depth to water table is more than 6 feet.

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: MODERATE

Depth to Bedrock Min: > 60 inches

Depth to Bedrock Max: > 60 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Permeability Rate (in/hr)	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	6 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 6.00 Min: 2.00	Max: 6.50 Min: 5.60
2	6 inches	63 inches	stratified	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 6.00 Min: 2.00	Max: 6.50 Min: 5.60

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: silt loam
very gravelly - sand
loamy sand

Surficial Soil Types: silt loam
very gravelly - sand
loamy sand

Shallow Soil Types: No Other Soil Types

Deeper Soil Types: No Other Soil Types

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

California Drinking Water Quality Database

Source: Department of Health Services

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations

Source: Department of Conservation

Telephone: 916-323-1779

Oil and Gas well locations in the state.

RADON

State Database: CA Radon

Source: Department of Health Services

Telephone: 916-324-2208

Radon Database for California

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRRA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

EDR Aerial Photo Decade Package

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

When delivered electronically by EDR, the aerial photo images included with this report are for ONE TIME USE ONLY. Further reproduction of these aerial photo images is prohibited without permission from EDR. For more information contact your EDR Account Executive.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

Kathleen M. Sloan, Ph.D.
PO Box 7244
Brookings, OR 97415
(541) 251-3159
Email: ksloan@yuroktribe.nsn.us (work)

Qualifications & Experience:

- Director, Yurok Tribe Environmental Program
- Program administration and management for EPA funded programs
- Secretary of Interior Standards qualified Archeologist
- NEPA and CEQA review & compliance
- NHPA Determinations of Eligibility and National Register nominations

Education:

- Ph.D. 2007 Oregon State University**
Major: Environmental Sciences
Minors: Cultural Resources Management and Native American Studies
- M.A.I.S. 2003 Oregon State University**
Major: Anthropology (Cultural Resources Management/Archeology)
Minors: Native American Studies and Native American Art History
- B.A. 1990 University of Notre Dame**
Major: Design and Visual Arts
Minor: Art History

Graduate Coursework Completed:

Environmental Sciences:

Environmental Methods, Environmental Analysis, Natural Resources and Community Values, Cultural Ecology, Landscape Ecology, Geographic Information Systems (GIS), Geoarcheology, Applied Geomorphology, Ice Age Environments, Survey of Paleo-ecology, GK-12 Science Education Theory, GK-12 Science Education Methods, GK-12 Science Education Practicum. Seminar and dissertation credits.

Anthropology:

Theory of Culture, Archeological Theory, Anthropological Research Design, Cultural Resource Law, Cultures of North America, Northwest Prehistory, North America After the Ice Age, Settlement Pattern Studies, Lithic Analysis, Faunal Analysis, Primate and Human Evolution, Human Osteology. Project credits (NAGPRA), lab credits (curation and analysis of pre-historic and historic archeological materials), Archeological Field School and CRM internship. Thesis and research credits.

Native American Studies:

Pacific Northwest Coast Art, Plains Indian Art, Contemporary Native American Art, Theories of Race and Ethnicity, Native American Tribes and Treaties & Federal Indian Law, Ethno-Historic Methods, Contemporary Native Issues, Native American Philosophies, Exhibition Design. Thesis and research credits in Ethnic Studies and Art History.

Professional Experience:

July 2008 – Present. Director. Yurok Tribe Environmental Program. Responsible for implementing EPA funded tribal programs on the Yurok Indian Reservation. Management and oversight of 3 divisions: Cultural Resources, Water Resources & Cross Media.

June 2003 – July 2008. Supervisory Archeologist/Assistant Director, Cultural Resources Division, Yurok Tribe Environmental Program.
