---

## **Project Summary:**

The Yurok Tribe is soliciting quotes from licensed contractors to provide roofing services at 10 Hufford Road, Orick, Calif 95555. The facility is currently vacant while the Tribe works to convert it into office space for the Yurok Telecommunication Corporation. The roof needs repairs and may have damage from dry rot. If dry rot is present, it will be addressed once the roof sheathing is exposed.

Repair work will include:

- Obtain Permits
- Demo & dispose of existing roofing to sheathing
- Cut down Dutch Gutters & install a 5" ogee gutter with downspouts.
- Reuse roof-to-wall flashing, if possible.
- Install counter flashing at chimney and skylight
- Install new pipe flashing and edge metal (brown)
- Install ridge and soffit venting to code requirements
- Install ice & water shield underlayment at valleys, eaves, and penetrations.
- Install high-profile hip and ridge with dimensional shingles.
- Install modified bitumen where necessary on flats.
- Hot dipped Galvanized nails to fasten the shingles.
- GAF felt buster Synthetic roofing, (or better)
- Please spell out Warranty, Declarations, Availability
- Add TERO 5% clearly on the proposal.

**\*\*The facility will be open for inspection on July 11 from 11-2pm.\*\***

Please contact Tom Hopkins using the information above with any questions. Project information and pictures can be viewed online at <https://www.yuroktribe.org/request-for-proposals-and-qualifications>.

All bidders must comply with the requirements outlined in the Tribal Employment Rights Ordinance (TERO), including all applicable taxes, forms, and hiring practices.
